EDUCATION

UNIVERSITY OF LAGOS, Electrical and Electronics Engineering

Relevant Coursework:

- Electronic Circuit Design, Continuous-Time Linear Systems, Calculus, Probability & Statistics, System Designs.

WORK EXPERIENCE

(July 2022 - present)

Providus Bank, Frontend Developer (REACTJS) | Lagos, Nigeria.

- Redesigned the corporate account opening platform, added some features to make easier and faster for relationship managers in the bank to open corporate account the number of accounts opened per day increased by 20%
- Handled the frontend development for the platform used to reassign relationship managers for customer's accounts
- Handled the frontend of the paar and formM platform built for individuals that deals with importation and exportation of goods
- Worked closely with the backend developers on the account opening report platform used to accept or decline the accounts opened by customers without the minimum requirements, this made it easier for account opening officers in the bank to be differentiate between the valid and invalid accounts opened.
